Dear Mohamed,

We're not sure why, but you'd want to get in contact with the folks in Special Collections since this goes through their system that ILL doesn't have access to. They have a contact form available on this page: <https://www.lib.umd.edu/special/contact/home>

Hope that helps!

Best,

Hello,

My request for George Augustine's thesis was 'Cancelled by staff', please see screenshot below. Any reason for that?

All Requests			
TN ↕	Library ↕	Title ↕	Author
60728	MDRM	Neurotransmitter release from the frog neuromuscular synapse : physiological and morphological alterations produced by the food dye erythrosin	Augustine,

Kind regards,

Dear Mohamed,

Thank you for your patience in regards to our response. I believe this might be the item you are referring to:

Title: Neurotransmitter release from the frog neuromuscular synapse : physiological and morphological alterations produced by the food dye erythrosin

Author: George James Augustine

Link: <https://umaryland.on.worldcat.org/oclc/7484583>

While our physical libraries are currently closed to the public, you should still be able to click the "Request from Special Collections" link in blue under the "Check Availability" banner. Once you create a guest researcher account, you should be able to request a scan of this thesis (as long as there aren't any author imposed embargos).

Hope you have a great day,

Hello!

May you please help me find the doctoral thesis written by George J. Augustine at the University of Maryland in 1980 under the supervision of Professor Herbert Levitan?

Kind regards,
